

An Ounce of Prevention

There's no better cure for HIPAA noncompliance than the diligence of our employees. Treat our patients' Personal Health Information as you would your own and:

- Limit your use of PHI to the minimum necessary to perform your job duties.
- Take the necessary steps to safeguard PHI in your possession from accidental or malicious exposure.

An ounce of protection can save us from a pound of cure. If you know or suspect that another person is careless or negligent with Patient Health Information, speak up. Report any violations or get more information by logging on to AlertLine:

www.corporation.com/helpline

or by calling 800-000-0000

Confidential, Easy-to-use and Always Available
